

# Great CD Alternative with Tax Free Benefits

**The Non Annuity Option;** for many people there is a better option than putting money in a CD

or Annuity, it will give you much more upside potential, leave your children two or three times as much and even give you protection for **Long Term Care**. You get the **Tax Deferred Growth** of an annuity, creditor and **probate protection** of an annuity but you get twice the upside potential without risk and you leave your loved ones much more. Best of all you have the option to get **100% of your money back Guaranteed** in writing. Based on past results which do not guarantee future performance it is possible to make over **10% or more** and your gains are locked in each year, and the gains are passed on income tax free and you cannot lose money! **Check out the benefits of The CD Alternative.**

**If you have money in Cash, CD or an Annuity; check out the CD Alternative. You could easily double your benefits to you and your family and protect against Long Term Care Costs with better upside potential than most annuities and receive Tax Free Benefits!**
